

**HONEYWELL CONTROL SYSTEM OVERVIEW  
(HONEYWELL COURSE NUMBER 6000)**

**COURSE DESCRIPTION**

This two day course provides an overview of the basic features, functions, terminology and control philosophy of the Honeywell Distributed Control Systems (DCS). It will provide participants with systems level information to improve communications between various users.

**COURSE OBJECTIVE**

Participants will learn what a DCS system is, what it can do, what information it can provide, and what is involved in its implementation, operation and maintenance. This course is intended to assist individuals in system and resource management.

**COURSE OUTLINE**

- TPS System Overview
- TPS System Hardware and Software
- TPS Configuration Products
- Uniformance
- PlantScape
- Fieldbus

**FOR WHOM**

This course is intended for both technical and non-technical personnel who require a high-level overview of Honeywell DCS products. These individuals would include, but would not be limited to, those who have responsibilities in operations, engineering, production, maintenance, purchasing, finance and human resources.

**PRE-REQUISITES**

None

**COURSE LEADER**

The course leader is a Honeywell accredited trainer.

**CERTIFICATE OF PARTICIPATION**

Certificates of Participation will be awarded to participants who have achieved 75% attendance for the course.
